

Washington State Department of Transportation Aviation Division

Airport Transformation Grant Supplemental Application Form

In October 2021 at the Washington Airport Management Association and Washington State Community Airports Association conferences, WSDOT Aviation announced that beginning with its 2022 Airport Aid grant program, 10% of the annual program funds available will be dedicated to Airport Transformation.

The purpose of the Airport Transformation Grants is to support the transformation of Washington's public use airports over time to be more environmentally sustainable. Sustainable aviation projects may include, but are not limited to: (1) Sustainable aviation fuel storage; (2) electrification of ground support equipment; (3) electric aircraft charging infrastructure; (4) airport clean power production; or (5) electric vehicle charging stations whose infrastructure also supports ground support equipment and electric aircraft charging.

Projects will be evaluated on their ability to reduce greenhouse gas emissions through the modification of airport infrastructure to adopt clean forms of transportation, adoption of on airport clean power generation, and/or modification of existing infrastructure resulting in less dependence on fossil fuels.

How to apply for an Airport Transformation Grant:

- Complete the [Airport Aid Grant Application](#) (Rev. 4/2021)
- Complete the [Airport Aid Application Checklist](#) (Rev. 3/2019)
- Sign the [Airport Aid Grant Assurances](#)
- Complete this Airport Transformation Grant Supplemental Application Form for each Airport Transformation project included in the Airport Aid Grant Application

The airport sponsor's authorized representative shall Email the above documents and any other supporting documentation (i.e. project schedule, detailed cost information, monthly spending plan, project plans and specifications, etc.) to: eric.johnson@wsdot.wa.gov

Note: Do not edit or alter the application forms in any way (i.e. deleting pages, combining documents into single documents, etc.)

For questions, please contact:

Airport Transformation Grant Supplemental Application

Complete a separate Supplemental Application for each Airport Transformation Grant project listed from the Airport Aid Application (Form 900-030EF)

Applicant:	Airport:	Date of Request:
Project No.:	Project Name:	
<p>1. How will the project help the airport become more environmentally sustainable?</p> <p>2. What is the demonstrated need for this project?</p> <p>3. Will the project reduce or offset greenhouse gas emissions? If yes, please elaborate on how the project will contribute to the reduction of greenhouse gas emissions. Yes No</p> <p>4. Can the reduction in greenhouse gas emissions resulting from the project be quantified? If yes, please elaborate. Yes No</p> <p>5. Will the project reduce dependence on fossil fuels? If yes, please explain how and quantify if possible. Yes No</p> <p>6. Will this project support future sustainable aviation technologies and/or Advanced Air Mobility? If so, please elaborate. Yes No</p> <p>7. Will the project increase the airport's ability to produce sustainable energy or reduce reliance on grid infrastructure? If yes, please elaborate. Yes No</p> <p>8. Is this a planning project? If yes, how will the planning lead to an airport transformation or sustainable aviation project? Please elaborate. Yes No</p>
