Notice to Consultants
Independent Cost Estimate (ICE) Services for Olympic Region's Progressive
Design Build Program*

The Washington State Department of Transportation (WSDOT) solicits interest from consultants who wish to be evaluated and considered to provide Independent Cost Estimate (ICE) services for a heavy civil Progressive Design-Build (PDB) program consisting of approximately 50 fish barrier replacement locations and multiple PDB contracts. The PDB contracts include Phase 1 preliminary engineering services to be performed by the Design-Builder to define the work and reach agreement on a fair market price using production based open-book pricing for Phase 2 work through a negotiated construction Guaranteed Maximum Price (GMP) and/or lump sum contract. The purpose of this ICE Services agreement will be to independently estimate design and construction costs at various design milestones to validate the Design-Builder's cost estimates and risk contingencies during the course of the agreement. One (1) agreement may be awarded. The agreement will be approximately seven (7) years in duration. The agreement amount will be approximately \$4,825,000.00 with the option for WSDOT to supplement it for additional time and money.

WSDOT reserves the right to amend terms of this "Request for Qualifications" (RFQ) to circulate various addenda, or to withdraw the RFQ at any time, regardless of how much time and effort consultants have spent on their responses.

Program Description

WSDOT intends to utilize the Progressive Design-Build (PDB) delivery method to design and construct fish passable structures for approximately 50 fish passage barriers in the Olympic Region. Work that may be included to construct each fish passable structure may include, but not be limited to, bridges, buried structures, streambed grading, restoration of fish habitat, landscaping, retaining walls, maintenance of traffic, right of way acquisition, drainage, and traffic safety elements such as guardrail and barrier. WSDOT will utilize the ICE services provided by the selected firm to evaluate the Progressive Design-Builder's preliminary estimates and the GMP submittal(s) for negotiating the Phase 2 contracts and subsequent amendments. The selected firm is anticipated to perform the following tasks at a minimum:

PDB Project Coordination and Collaboration:

- Participate in frequent formal and informal communication, team meetings, and site visits with WSDOT and its selected progressive design-builder to gain a thorough understanding of the project and the project objectives. Provide input and feedback in the development of an approach to building the project and an overall project schedule, and identify innovative and efficient solutions that address potential project challenges and lead to overall lower project costs.
- As needed, perform contract document reviews to help ensure the clarity, quality, and constructability of project documents.

Project Schedule Development and Construction Cost Estimates:

- Review or prepare the Phase 2 project schedule based on progressive design-builder's project approach to establish the basis for developing a production-based construction cost estimate.
- Work with the PDB Design-Builder to develop an estimating methodology plan for the coordination of the estimates prepared by the PDB and ICE.
- Develop quantity takeoffs at 30% and 60% design milestones and lead quantity reconciliation meeting.
- Provide production-based cost estimates which are suitable for evaluating progressive design-builder's proposed concepts and alternatives at various design milestones.
- Provide production-based construction cost estimates for early work packages, and negotiation of Guaranteed Maximum Price and/or lump sum for Phase 2 work at various stages of project design.
- Work with the PDB Design-Builder to prepare a Basis of Estimate report to be submitted with the estimate that identifies mutual assumptions, market conditions, quantities, allowances, contingencies, and other items that may affect the price of the project.
- Develop an agenda and lead cost reconciliation meetings at 30% and 60% design milestones in order to get within a reasonable cost variance between the Design-Builder and ICE.
- Compare ICE estimate with PDB Design-Builder's estimate and provide a summary of differences, including rationale causing the variation.
- Develop a summary report outlining changes in costs after each OPCC reconciliation meeting
- Other estimating tasks, as needed to support WSDOT in determining a fair market price for the project scope and contract changes.
- Develop a memorandum that provides recommendation for use of GMP, lump sum, and contingencies and allowances.

Risk Management:

- Assist the project team in identifying, estimating and managing risks and recommending solutions that eliminate, minimize, or mitigate those risks.
- Provide risk cost estimating support and make recommendations as requested by WSDOT on risk allocation between WSDOT and the progressive design-builder.
- Participate in lessons learned after construction completion of each bundle.

UDBE, SBE, or MSVWBE Participation

This agreement will be subject to a 26% voluntary MSVWBE goal. The selected consultant will be required to submit a MSVWBE Participation Plan for approval prior to commencement of work.
